FOREWORD

The Calendar of Expiring Agreements is a compilation of major collective agreements in British Columbia which are scheduled to expire in the coming year. The publication includes those expiring agreements which cover 25 or more employees.

The total number of agreements and employees covered by expiries listed in the Calendar likely understates to some extent the bargaining activity to be expected during 1987. First, it is not possible to anticipate bargaining which will arise from first-contract negotiations where a trade union has been newly certified by the Labour Relations Board. Second, at the time data for the Calendar was being assembled in November 1986, a number of collective agreements were in the process of being re-negotiated. Some of these renewed agreements will likely expire in 1987 but at the time of the publication it was not known which of them will be up for negotiation again in the coming year. A revised list of upcoming expiries is published each month in Collective Bargaining Information which is available from the Queen's Printer in Victoria (387-1901).

The information contained in the Calendar was compiled by Fern Hegan and typed by Margaret Ludwig of the Policy and Planning Branch. Our thanks are extended to employers and unions who co-operated in providing expiry information to the Branch.

INTRODUCTION

A total of 332 collective agreements covering 25 or more employees will expire in British Columbia during 1987. These expiries cover 117,216 employees in the province. The number of expiries scheduled to be renegotiated is smaller than the number reported in the 1986 calendar (379) but covers approximately 47% fewer employees than did last year's list of expiries (222,098).

In 1987, the agreements between the seventy-five Pulic School Boards and the B.C. Teachers Federation cover the largest number of employees. These 12-month agreements cover about 30,000 employees and the agreements terminate on June 30, 1987. The three agreements between the B.C. Roadbuilders Association and the Operating Engineers, the Labourers, and the Teamsters also cover a large number of employees. These 2-year agreements cover 9,500 employees and expire on February 28, 1987. Other large expiries include the Federal government and the PSAC (4,300 employees), Cominco and the Steelworkers (3,650 employees) and CONIFER and the IWA (3,500 employees).

About 50 percent of the collective agreements expiring during the coming year are two-year agreements. There are 167 twenty-four month agreements up for renegotiation - (see Table 1). The proportion of expiring two-year agreements in 1987 is lower than shown in the 1986 Calendar (55%) and the 1985 Calendar (62.9%). In the 1987 Calendar, about 29 percent of agreements were longer than two years compared to 32 percent in 1986.

The two months in which the largest number of collective agreements are scheduled to expire are December (76 expiries) and March (51 expiries). The next busiest month on the bargaining calendar is June with 42 expiries - (see Table 2A). In terms of the number of employees, the months of June and December are most important (40,187 employees and 24,115 employees, respectively).

The industry with the largest number of expiries in 1987 is Manufacturing with 121 agreements covering 21,402 employees. The Public Administration sector has the second highest number of expiries (54) covering 27,186 employees.

Table 3 of the Calendar contains a chronological list of 1987 expiries by month. Individual expiries are listed by industry in Table 4. Employee totals for the federal jurisdiction includes only employees in British Columbia.

Following is a list of major collective agreements due to expire in 1987 which cover 500 or more employees.
